Product description

MGS MB291

Wall-mounted stainless steel washbasin tap with aerator

Description

MB291 - Two-hole wall-mounted tap.

Elegantly curved spout with hidden aerator combined with a compact faucet.

Solid marine grade AISI316 stainless steel, also partially built-in.

Hand polished by experienced craftsmen to a matte or polished finish.

Also available in our exclusive PVD finishes Black Steel, Titanium, Gold and Rose Gold on matte stainless steel.

Pop-up waste is not included.

US version flows 1.2 GPM at 60 PSI.

When choosing bathroom accessories from our ever-expanding line of contemporary stainless steel faucets, you can find the perfect balance where design meets function. From sinks to bathtub fittings, thermostatic shower faucets to exclusive accessories, your bathroom décor will be the height of modern Italian elegance.
