Hot water supply required	Should be 70% of water capacity of TUB or greater.
Turbine	Access to the pump must be at least 18" x 22". Standard connection is two (2) dedicated breakers: One is 20A, 120 V, 60 Hz, and the other 15A, 120 V, 60 Hz , dedicated lines with a GFCI. Air vent necessary: 2" x 4" minimum.
Others	- The GEYSAIR must always be accessible and connected to the hot water supply (provide access). - Optional tile flange (specify front or back).

Our products must be installed by certified professionals only and according to our Owner's Manual as well as federal, provincial/state and local building codes and regulations (www.bainultra.com/documentation/documentation).

Approx. shipping weight	158 lbs
Turbine power	550 W
Air heater	600 W
WARRANTY	
Controls-LED-Geysair*	5 years
Bath & turbine*	20 years

* Some restrictions apply | www.bainultra.com/warranty

The specifications shown indicate the outer edge dimension and the inside bathing capacity dimension measured at air jets' height. The manufacturer accepts a 1/4" [0.64 cm] variance. There are variations on each product and specifications are subject to change as we improve upon our product as required. The dimensions needed for site preparation and structure building will differ. BainUltra® assumes no responsibility for preparatory work done prior to the product being on site.
