## UL-142 Skid Tank Design Improvements

Effective April 1, 2023 the following design changes will be incorporated on all models of skid tanks

Please make note of the model number and dimensional changes

- New and improved skid design for easier and more efficient movement
- More compact double-wall design
- Identical opening pattern on both single-wall and double-wall tanks
- Leak detection system (float design) integrated on all double-wall tanks
- Fully automated, powder-coated, baked enamel paint giving you a more durable coating
- Emergency Vent included on all tanks (1 for single-wall, 2 for double-wall)
