Warranty, Terms and Conditions

Limited Warranty, One-Year Term

ROBERN® warrants to the original purchaser that, it will, at its election repair, replace, or make appropriate adjustment to products made by this company shown to have significant defects in material or workmanship which are reported to ROBERN in writing within one (1) year from the date of delivery. ROBERN is not responsible for installation costs.

The warranty time period for operating components including door hinges and opening devices to the original owner extends beyond the one-year term.

The warranty is void in the event the product is damaged in transit, or if damage or failure is caused by abuse, misuse, abnormal usage, faulty installation, damage in an accident, improper maintenance, or any repairs other than those authorized by ROBERN. At the expiration of the one-year warranty period, ROBERN shall be under no further obligation under any warranty, expressed or implied, including the implied warranty of merchantability.

ROBERN shall not be liable for any consequential damages arising out of or in connection with the use or performance of its products. Some states do not allow limitations on how long an implied warranty lasts or do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Any liability against ROBERN under any implied warranty, including the warranty of merchantability, is expressly limited to the terms of this warranty.

Permission to return any merchandise under this warranty must be authorized by ROBERN and returned prepaid by the purchaser.

Claims under this warranty should be sent directly to your dealer.

Conditions of Purchase

Tips:

For M_FL Vertical Fluorescent Lighting

1. Two lights per kit includes: 3,000K T-8 color corrected bulb, dimmable electronic ballast and choice of glass or plastic shade and end cap finishes.
2. Dimmable bulbs carry a lifetime bulb replacement warranty.
3. Meets California Title 24 energy codes.
4. Not available as half kit. Two fixtures required for installation.
5. Single light is 1-1/2" W. Light kits add 3" to overall width of installation. Include this in rough opening calculation.
6. *The cable is included with the fixture but is sold separately for rough-in.
7. Recommended Dimmer for MP and MT Fluorescent light fixtures: Lightolier – Sunrise Series, model # ZP600-EB or the Lutron model # DVFTU-5A3P (4 sets of lights can go on one dimmer). Light uses the advanced Mark X ballast.
8. MPFL = 25 watts each bulb; MTFL = 17 watts each bulb.
9. All lighting options are UL listed for damp locations.
10. Chrome and Brushed Nickel end caps coordinate with M Series silver interior and door.
11. See PL lighting on page 110 for lights with black or white end caps.

Tips:

Wood frames are ready to install on wall over rough opening or around cabinet. Use supplied corner keys for simple assembly.

For MWB Standard Size Cabinets

1. MWB D4 framed cabinets must be surface mounted.
2. MWB D8 cabinets must be semi-recessed. When recessing, the opening is the standard M Series overall width and overall height.
3. MWB frames not available for D6 cabinets.

For MWS and MWL Standard Size Cabinets

1. MWS and MWL framed cabinets must be recessed. The opening is the standard MP/MT Series detail - overall width less 3/4" and overall height less 3/4".
2. The MWS frame adds 7" to the overall height and width of cabinet combination. Frame has a 3-1/2" wide profile.

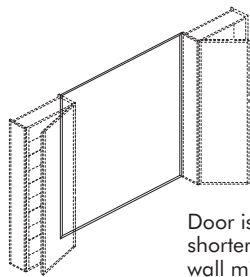

4. The MWB frame adds 7" to the overall height and width of cabinet or cabinet/light combination. Frame has 3-1/2" wide profile.
5. Cabinet combination fits easily into frame and wall when recessed or when surface mounted using supplied installation brackets.

3. The MWL frame adds 9" to the overall height and width of cabinet combination. Frame has a 4-1/2" wide profile.
4. Frame profile provides finger access for opening doors.
5. MWS Frame projects 1-3/16" from wall.
6. MWL frame projects 1-5/8" from wall.

Tips:

For TLS Lighting

Light strips are UL listed for damp locations and feature beveled mirror on front and sides.

For WMH Lighting

1. WMH lights fit behind all Re:Flect mirrors and extend 2" above and 4" in front of mirror.
2. Dimmable electronic transformer included. The 4-3/4" square transformer junction box must recess into wall behind mirror.
3. All lighting options are UL listed for damp locations.

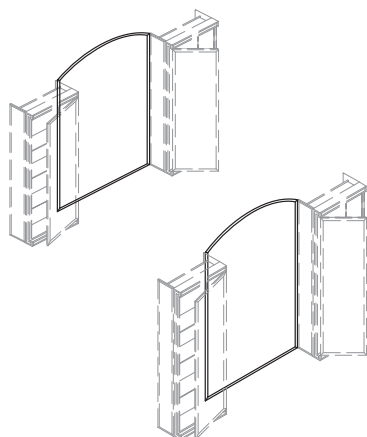

For CAHC Lighting

1. Fixtures attach to top of all C Series cabinets.
2. Dimmable electronic transformer included.
3. Cabinets cannot be recessed when using CAHC Lights.
4. Fixtures are 6" W and project 5" above cabinets. 16" and 20" W cabinets can support 2 fixtures, 24" W cabinets can support 3 fixtures.
5. All lighting options are UL listed for damp locations.

How to Calculate Total Width for Ganging Cabinets

M Series & PL Series cabinet ganging are handled the same way. Note: ganging hardware is not included and needs to be purchased separately. See the list below or the individual cabinet pages for specific ganging kit required.

Rough opening width/height = total width/height of the array of cabinets and lights minus $\frac{3}{4}$ " (1.9 cm).

Example: Three MT20 Cabinets – overall individual cabinet dimension is $19\frac{1}{4}$ " W x 30" H

- Width = $19\frac{1}{4}" + 19\frac{1}{4}" + 19\frac{1}{4}" - \frac{3}{4}" = 57"$
- Height = $30" - \frac{3}{4}" = 29\frac{1}{4}"$
- Total Rough Opening Dimension = 57" W x $29\frac{1}{4}"$ H

Three MT20 Cabinets

A pair of M Series vertical lights can be added to the above configuration. MTFL/MPFL Vertical Fluorescent lights are $1\frac{1}{2}$ " wide each and add 3" to the Total Width. Reflexion™ lights are $3\frac{1}{2}$ " wide each and add 7" to the Total Width.

- $57" + 3"$ lights = 60" Total Rough Opening required
- $57" + 7"$ lights = 64" Total Rough Opening required

When ganging multiple cabinets or multiple cabinets with lights, don't forget to order the proper ganging kit(s):

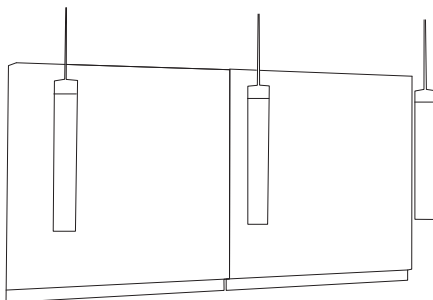

- MGKIT – ganging kit for M Series (MP, MT or MY) when combining 2 or 3 cabinets
- MFGKIT – ganging kit for MF Series (70" H Full Length cabinet) when combining 2 or 3 cabinets
- PLGKIT – ganging kit for PL Series cabinets when combining 2 or 3 cabinets
- RGKIT – ganging kit for when Reflexion lights are combined with 2 or 3 cabinets
- 1.5GKIT – ganging kit for when the MTFL/MPFL $1\frac{1}{2}$ " W fluorescent lights are combined with 2 or 3 cabinets

Uplift™ cabinets are paired and not actually ganged together.

When recessing multiple cabinets, make rough opening holes for single cabinets with a stud in between, finished stud with drywall.

Uplift Rough Opening dimensions are:

- 30" W x 27" H Cabinet = $28\frac{3}{4}"$ W x $26\frac{1}{4}"$ H
- 36" W x 27" H Cabinet = $34\frac{3}{4}"$ W x $26\frac{1}{4}"$ H
- 48" W x 27" H Cabinet = $46\frac{3}{4}"$ W x $26\frac{1}{4}"$ H

Two Uplift Cabinets with Three Uplift Pendants

An Uplift Finishing Kit (UFKIT) is required to finish the drywall and completes the installation for multiple cabinets.

HOW TO USE ROBERN®'S CAB•FAX SYSTEM

The following is a detailed outline of instructions for the CAB•FAX (Fax-On-Demand) System. Please note, to continue to the next option at anytime, press the pound (#) key; to cancel at anytime, press the (*) key.

1. Have your fax number handy.
2. Call (800) 378-8774. A voice message will tell you the following:
 - Thank you for calling ROBERN CAB•FAX.
 - Please listen carefully. Our CAB•FAX options have changed.
 - Press the star (*) key to cancel at anytime.
 - You may request up to 9 documents. Press the pound (#) key after each entry or when you have finished entering your request.
 - For a **printed list of all available documents**, press **0001** when prompted to enter a document number.
 - Enter your extension number when prompted or press the pound (#) key to continue.
 - Please enter a 3- or 4-digit document number now followed by the pound (#) sign. (Push the pound (#) sign twice when you have finished entering all documents.)
3. Enter desired document number as mentioned above and press the pound (#) key. (Voice message will loop.) Enter additional document numbers if needed or press the pound key to continue.
4. Enter your extension number and press the pound (#) key. (If you choose not to do so, just press the pound (#) key.)
5. Enter your fax number and press the pound (#) key.

Once you have confirmed your fax number, you can hang up.
(The message will automatically start again.)

When new products are introduced, call CAB•FAX for the updated version of this document.
