

Amba Solo Freestanding Instructions

Installation:

- * Review instructions carefully
- * Ensure all components are included in box.
- * With unit unplugged, install legs on frame as shown. Hand tighten only.
- * Adjust bottom of leg to ensure unit is level.

Operation:

- * Connect plug to a properly grounded outlet.
- * Push the switch to the on position to illuminate light to indicate unit is on.
- * Unit will reach working temperature in about 5-10 minutes.
- * Switch the unit off when not in use.

Caution:

- * Do not place unit in shower, sauna or where it will be exposed to water.
- * Product is for drying towels or bathrobes and not for other purposes.
- * The unit is designed to carry no more than two large towels. Exceeding this limit could result in the discoloration of the towels due to heat build up.
- * Children should not be allowed to play with unit.
- * Use cleaners recommended for stainless steel surfaces only.

Warranty:

Two year limited warranty, with proof of purchase, will apply if all Terms and Conditions of Sale are met and Installation Instructions are adhered to.
